

Dr. Domenico Giustiniano

CV summary

Dr. Domenico Giustiniano is Research Associate Professor (tenured) at IMDEA Networks Institute, Madrid, Spain, and leader of the Pervasive Wireless Systems group. Before joining IMDEA in 2013, he was a Senior Researcher and Lecturer at ETH Zurich. He also worked for a total of four years as Post-Doctoral Researcher in industrial research labs (Disney Research Zurich and Telefonica Research Barcelona). He holds a PhD in Telecommunications and Microelectronic Engineering from the University of Rome Tor Vergata (2008), and Executive Education from IE Business School on Management Fundamentals and Skills for Scientists and Researchers (2021).

The original contributions Dr. Giustiniano has made to his field of research are exemplified by publications in international and highly competitive conference venues such as ACM MobiCom (3), ACM Mobisys (2), ACM CoNEXT (9), IEEE INFOCOM (3), ACM/IEEE IPSN (5), ACM HotNets, and journals such as IEEE Journal on Selected Areas in Communications (2), IEEE/ACM Transactions on Networking (3) and IEEE Transactions on Wireless Communications. Dr. Giustiniano is leader of the OpenVLC project, an open-source platform for research in visible light communication networks and co-founder of the non-profit Electrosense association, a crowd-sourcing initiative to collect and analyse spectrum data. He is the project coordinator of the H2020 European Training Network ENLIGH'TEM on low-energy Visible Light Communication for IoT (2019-2023). He has been general chair of EWSN 2018 and IFIP/IEEE SustainIT 2015, and regularly serves as TPC member in top conferences such as ACM Mobicom, ACM Conext and IEEE INFOCOM. Dr. Domenico Giustiniano is senior member of IEEE and ACM societies.

Professional Experience

IMDEA Networks Institute, Madrid, Spain

Research Associate Professor (tenured)

February, 2016 - today

Group leader, currently managing a group of 2 PostDoc, six PhD Students, one Research Engineer and one Project Administrator. Coordinator of several international and national research projects with funding from public agencies and industry. The main current research areas are LiFi systems for low-power Internet-of-Things, 5G and beyond localization systems, and large-scale wireless spectrum monitoring systems. Leader of the open-source openvlc.org (<http://openvlc.org>) initiative, and co-funder and board member of the non-profit Electrosense association (<https://electrosense.org>).

Research Assistant Professor (tenure-track)

November, 2013 - January, 2016

ETH Zurich, TIK Lab, Zurich, Switzerland

Senior Researcher and Lecturer

April, 2012 - October, 2013

Lecturer of courses for master students. Investigation of the optimal strategy to distribute a content from the cloud to interested users for opportunistic dissemination. Algorithms and methods to minimize the communication delay in time-critical operations with flying robots. Design and evaluation of chip-level link quality estimators and jamming detectors. Investigation of time-based indoor localization techniques based on WLAN technology.

Disney Research, The Walt Disney Company, Zurich, Switzerland

PostDoctoral Researcher

May, 2010 - March, 2012

Research to exploit low-power LEDs as transceivers for visible light communication, and design and implementation of half-duplex channel access MAC protocol with collision detection and flickering avoidance. Devised a solution that allows accuracies in the distance estimation between two WLAN devices below 1 – 2 m with standard compliant off-the-shelf 802.11 hardware and driver-based solutions, with limited number of samples needed for convergence.

Telefonica Research, Scientific Group, Telefonica Cooperation, Barcelona, Spain

PostDoctoral Researcher

March, 2008 - March, 2010

Research for analysis, implementation and evaluation of a 2.5 layer solution running on the client-side that efficiently increases the speed of residential Internet Access, aggregating the speed of multiple last-mile technologies using a single WLAN radio card, and addressing the fair allocation of resources. Prototype system with a realistic deployment at Telefonica Research facilities.

University of Palermo, Italy

Research Assistant

December, 2007 - February, 2008

Performed measurement studies and analysis for outdoor mesh networks. Implementation of customized 802.11 MAC FPGA platform to validate experimental results obtained during the PhD studies.

Hamilton Institute, Maynooth NUI, Ireland

Phd Intern

April, 2007 - November, 2007

Design and implementation of a cross-layer MAC/PHY approach to measuring and understanding the causes of missed 802.11 transmission opportunities in WLAN networks on a per-link basis. The estimator requires only local measurements, exploiting several features in the 802.11 protocol. The project was in collaboration with Intel Research Lab, Pittsburgh - CMU, PA, USA, visited during May 2007.

University of Tor Vergata, Rome, Italy

PhD candidate

December, 2004 - March, 2007

Analysis and investigation of the dependency of link-measurement results with respect to proprietary undocumented algorithms implemented in the employed vendor specific firmware/driver. Discovered experimentally low-level PHY functionalities in off-the-shelf chipsets that can affect the experimental validation of PHY-level studies, leading to biased experimental trials and/or to erroneous interpretation of network-level experimental results.

University of Palermo, Palermo, Italy

Research Assistant

December, 2003 - November, 2004

Proposed and evaluated an equalizer for HSDPA coding schemes able to provide spatial and frequency diversity at the receiver over frequency selective fading channels. Investigated an algebraic code characterized by an efficient decoding scheme, able to exploit almost all the spatial diversity of the system without using expensive maximum likelihood equalizations.

Education

IE Business School, Madrid, Spain

January 2021 - June 2021

IE Executive Education, Field Of Study: Management Fundamentals and Skills for Scientists and Researchers. US grading system in the eight exams: 7 x A+ (Honors), 1 x B+ (Excellence)

University of Tor Vergata, Rome, Italy

December 2004 - March 2008

Ph.D., Telecommunications and Microelectronic Engineering

- Dissertation Title: “*Channel quality estimation and impairment mitigation in 802.11 networks*”
- Advisor: Prof. Giuseppe Bianchi

University of Palermo, Italy

September 1997 - July 2003

MSc (Italian degree laurea, 5 years) in Electronics Engineering, major Telecommunication. Final grade: 110/110 cum laude.

- Dissertation Title: “*Space time diagonal codes using the Hadamard matrix and linear block codes*”
- Advisors: Prof. Bossert (University of Ulm) and Prof. Campanella (University of Palermo)

Master Thesis at the TAIT Department, University of Ulm, Germany.

Research Projects - H2020 and other international calls

“SOMIRO - Soft Milli-robots”. Funded by EU H2020 H2020 ICT-47-2020, wireless robotic surface - Total project: 2,992k Euro, Granted for IMDEA: **349k Euro**. Role: IMDEA Principal Investigator. 2021-2024

“LOCUS - Localization and analytics on-demand embedded in the 5G ecosystem, for ubiquitous vertical applications”. Funded by EU H2020 ICT-20-2019-2020 - Total project: 5,999k Euro, Granted for IMDEA: **411k Euro**. Role: IMDEA Principal Investigator. 2019-2022

“ENLIGHT’EM - European Training Network in Low-energy Visible Light IoT Systems”. Funded by EU H2020-MSCA-ITN-2018 - Total project: 4.147k Euro, Granted for IMDEA: **735.8k Euro**. Role: Project coordinator. 2019-2023

“SOCRATES - Large Scale Collaborative Detection and Location of Threats in the Electromagnetic Space”. Funded by NATO Science for Peace and Security - Total project: 350k Euro, Granted for IMDEA: **115.2k Euro**. Role: Project coordinator. 2018-2021

“Location-aware MAC scheduling in Mobile and Dense Networks”. Funded by H2020 Future Internet Research & Experimentation (Fire) - Wishful 4-th Open Call. - Granted: **37.5k Euro**. Role: Project coordinator. 2017

“Flex5Gware - Flexible and efficient hardware/software platforms for 5G network elements and devices”. Funded by the EU under call H2020-ICT-2014-2. Granted: **251k Euro**. Role: IMDEA co-Principal Investigator. 2015-17

“mmMAGIC - Millimetre-Wave Based Mobile Radio Access Network for Fifth Generation Integrated Communications”. Funded by the EU under call H2020-ICT-2014-2. Granted: **384k Euro**. Role: IMDEA co-Principal Investigator. 2015-17

Research Projects - Industrial grants

“SpectrumCop programme”. Funded by Armasuisse Science and Technology. - Yearly Grants from 2014 to 2021. Total granted: **892.5k Euro**. Role: Project coordinator. 2014-2021, 66k Euro in 2021 with the project “TechLoc - Technology Classification and Localization of Anomalies in the Spectrum”.

RESEARCH PROJECTS NATIONAL AND REGIONAL CALLS

“6G Technology Enablers for Integrated Communication and Sensing (ENABLE-6G)”. Funded by Spanish Ministry of Science, Innovation and Universities. - Total project: 1,762k Euro, Granted for IMDEA: **527k Euro**. Role: Project coordinator. 2022-2024

“Contact Tracing with 5G and Beyond Networks (CONTACT-CM)”. Funded by Ministry of Education and Research, Region of Madrid. - Granted for IMDEA: **1,257k Euro**. Role: Project coordinator. 2020-2022

“Anomalies in the wireless spectrum”. Funded by Ministry of Education and Research, Region of Madrid for hiring a PostDoc researcher. - Granted: **35k Euro**. Role: PI. 2019

“PinPoint5G+: Accurate, Pervasive and Low-Latency Positioning to Innovate 5G Networks and Beyond”. Funded by Spanish Ministry of Science, Innovation and Universities. - Granted for IMDEA: **192.5k Euro**. Role: Project coordinator. 2019-2021

“Advanced Technologies to Enhance the Intelligence in 5G Networks (TAPIR-CM)”. Funded by Technology 2018 programme of Region of Madrid, Spain. - Total project: 820k Euro, Granted for IMDEA: **453.6k Euro**. Role: Project coordinator. 2019-2022

Funding from the University of Carlos III for the organization of conferences (Ayudas para la organizacin de congresos y reuniones cientificas UC3M) - Granted: **3k Euro**. 2017

“Hyperadapt - Modeling and Online Performance Optimization of Adaptive Networks”. Funded by Spanish National Call. Granted: **175k Euro**. Role: IMDEA researcher. 2015

Funding from the University of Carlos III for the organization of conferences (Ayudas para la organizacin de congresos y reuniones cientificas UC3M) - Granted: **3.5k Euro**. 2014

“TIGRE5 CM - Tecnologas Integradas de Gestin y operacin de REd 5G”. Funded by the Region of Madrid. Granted: **182k Euro**. Role: IMDEA researcher. 2014

Research Projects - Other grants

“Swarmix” funded by ETH Zurich - Granted: **8.4k Euro**. Role: Project coordinator. 2013

Funding from SSNF Switzerland for the organization of a workshop - Granted: **15k CHF**. 2013. Project proposal written with Dr. K. A. Hummel.

Honors and Awards

- PassiveLiFi paper, published at ACM Mobicom 2021, has been **covered by several media outlets**: Hackster, El Mundo (Largest newspaper in Spain) , Stacey on IoT, TechXplore, AzoSensors, ElectronicsForu. Furthermore, TeleMundo covered the news with an interview to the team.

- Cited as **one of the 5 most prolific authors in ACM CoNEXT** conference in the report of 50 years of ACM Special Interest Group on Data Communications, SIGCOMM (published at Computer Communication Review, October 2019)

- **Cyber Award** for outstanding scientific contribution in Cyberspace and Information research program of Armasuisse Science and Technology. 3rd place in 2018, 2nd place in 2017, 2016, 2015.

- **Distinguished TPC Member Award** of the IEEE Infocom Technical Program Committee. Years: 2022, 2020, 2018, 2017, 2016

- **Best Paper Award Runner-up** at ACM CoNEXT '16, December 2016.

- **Best Student Paper Award** at IEEE PIRMC '16, September 2016.

- **First prize at Innovation & Entrepreneurship International Competition**, Munich division. June 2016. Award shared with PhD student Qing Wang.

- **Most Entertaining Video Award, and Nomination for the best video and best robot video** at the 10th AAAI Video Competition, Phoenix, February 12-17, 2016. Awarded to the video: Finding Linda - A Search and Rescue Mission by SWARMIX, SWARMIX project team.

- **Fellowship** 'MARIE CURIE' AMAROUT Europe Programme, funded by: European Union. ICT Programme FP7-PEOPLE CO-FUND. November 2013.

- **Best Paper Award** at IFIP Wireless Days '12, November 2012.

- Disney Research, 2 **Disney Inventor Awards**, April 2012

- **Best Project Award** of 2010 Telefonica R&D centers for the innovation and visibility to the company and versus the clients.

- **Fellowship** for the PhD studies from the region of Lazio, Italy. Years: 2006 and 2007.

- **EU Grant** for Erasmus studies at the University of Ulm, 2002.

- **Grants** from the University of Palermo for MSc degree studies. 1999, 2000, 2001, 2002. **Grant** for English language study in UK. 2001.

Selected Talks and Lectures (talks at peer-reviewed conferences are not included)

Invited remote lecture for Master class at University of Uppsala, Sweden. “Introduction to Visible Light Communication Networks”, 2nd of December, 2020,

Invited talk at Telefonica Research, Spain, on the Electrosense project. 26th of September, 2019.

Keynote Speaker at Military Applications of IoT workshop, co-located with IEEE World Forum on IoT (WF-IoT). Title: “SOCRATES: Large Scale Collaborative Detection and Location of Threats in the Electromagnetic Space”. Limerick, 16th of April, 2019.

Invited talk at Washington University, Seattle, USA, on the Electrosense project. 14th of November, 2018.

Invited talk at Trinity College, Dublin, Ireland. Title: “Connecting Battery-free IoT Tags Using LED Bulbs”. 13th of November, 2018

Keynote Speaker at the main conference of Crowncom 2018, 19th of September, 2018. Title: “Collaboration Models for Large-scale Spectrum Monitoring”

Invited talk at Stony Brook, USA, on the Electrosense project. 7th of September, 2018.

Invited panelist at the ACM Mobicom 2017 Workshop on Visible Light Communication Systems (VLCS 2017), Snowbird, UT, USA. Topic: “Hybrid VLC and Radio Communication: Potential, Challenges and Solutions for Coexistence”. 16th of October 2017.

Invited talk at the “Connected Objects In Defence And Security” workshop, organized by Federal Department of Defence, Civil Protection and Sport DDPS, Switzerland. Title: “From Conventional RF Monitoring to Open and Big Spectrum Data: Challenges and Opportunities”. 6th of September 2017.

Talk at the Researcher Night 2016, Madrid for students from Secondary School. 30th of September 2016.

Invited talk at the “FORA” workshop, organized by Federal Department of Defence, Civil Protection and Sport DDPS, Switzerland. Title: “Electrosense: Technologies and Collaboration Models for Large-scale Spectrum Monitoring”. 9th of June 2016.

Invited talk at the University of Bologna, Italy. Title: “Visible Light Communication and Sensing Systems with OpenVLC Platform”. 23th of November, 2015.

Invited speaker and panelist at the IEEE Summer Topical Events, Nassau, Bahamas. Title of the talk: “OpenVLC, an Open-Source Platform for the Internet of Light”. 13th of July, 2015.

Invited talk at INSA Lyon/INRIA-CITI Lab, France. Title: “Research in Visible Light Communication Networks with OpenVLC Platform”. Lyon, France. 12th of May, 2015.

Invited talk at Trinity College, Dublin, Ireland. Title: “Research in Visible Light Communication Networks with OpenVLC Platform”. 8th of May, 2015

Talk at the Researcher Night 2014, Madrid, for students from Secondary School. September 2014.

Invited tutorial at Uppsala University, Sweden. Topic: “Introduction to Visible Light Communication”. 3 hour of lecture. Co-lecturers: Prof. Dr. Marco Zuniga and Dr. Daniele Puccinelli. 27th of November, 2013.

Invited talk at UC3M university, Madrid, Spain. Title: “Low-Complexity Visible Light Networking with LED-to-LED Communication”. 16th of January, 2013.

Invited talk at the University of Zaragoza, Spain. Title: “Main Research Activities”. 14th of January, 2013.

Invited tutorial at the University of Palermo, Italy for MSc students. Title: “Seamless Localization with Smartphones”. Class on Mobile Networks. 3 hours of lecture. 20th of December, 2012.

Lecturer in the class of Advanced Topics in Communication Networks (ATCN) 2012 on the topic “When and Where: Navigating using Wireless Localization”. 6 hours of lecture, plus dedicated sessions on practical and theoretical exercises. November, 2012.

Invited talk. Title: “CAESAR: Carrier Sense-Based Ranging in Off-The-Shelf 802.11 Wireless LAN”. ETH Zurich, Switzerland. 1th of December 2011.

Invited talk at University of Palermo, Italy for MSc class. Title: “ClubADSL project”. 13th of April 2010.

Lectures for PhD students at the Universitat Politcnica de Catalunya (UPC), Barcelona, Spain. 4 hours of lecture. Title: “Wireless Home Networking and Internet Access”. 10th and 12th of November 2009.

Invited talk at the Universidad Carlos III, Madrid, for PhD Class. Title: “ClubADSL project”. 25th of May 2009.

Invited talk at Hamilton Institute, Ireland. Title: “ClubADSL: Enhancing Bandwidth Aggregation in your Neighborhood ”. 20th of February, 2009.

Invited talk on “On the side-effects of proprietary solutions for fading and interference mitigation in IEEE 802.11b/g outdoor links” for PhD and Master Students, Universitat Pompeu Fabra (UPF), Barcelona, Spain. 23th of October 2008

Seminar at Campus Party, Valencia, Spain. Topic “Wireless Hacking” with live demos. Presentation and practical exercises. Total of 2 hours of lecture and exercises. With A. L. Toledo. 28th of July, 2008.

Supervision of PhD Theses

Maurizio Rea, “Time-based indoor positioning and context information using commodity WiFi chipsets“, University Carlos III of Madrid, June 2020. (“sobresaliente” grade of the PhD dissertation, plus proposal for “cum laude”).

Ander Galisteo, “Visible Light Communication Networks for IoT and its Applications“, University Carlos III of Madrid, June 2020. (“sobresaliente” grade of the PhD dissertation, plus proposal for “cum laude”).

Roberto Calvo, “Towards Large-Scale and Collaborative Spectrum Monitoring Systems using IoT Devices“, University Carlos III of Madrid, July 2019. (“sobresaliente” grade of the PhD dissertation, plus proposal for “cum laude”). Roberto Calvo has joined the **University of Rey Juan Carlos, Madrid as Associate Professor**, starting from September 2020.

Aymen Fakhreddine, “Opportunistic Timing Signals for Pervasive Mobile Localization“, University Carlos III of Madrid, June 2018. (“sobresaliente” grade of the PhD dissertation).

Qing Wang, “Visible Light and Device-to-Device Communications: System Analysis and Implementation“, University Carlos III of Madrid, May 2016. (“sobresaliente” and “cum laude” grade of the PhD dissertation, and “Outstanding thesis awards 2015/2016” from UC3M, Madrid, Spain). Qing Wang has joined the **Embedded and Networked Systems, TU Delft, The Netherlands, as tenure-track Assistant Professor** starting from April 2020.

Supervised PhD Interns

Yijing Zeng (Wisconsin University, USA), Giuseppe Santaromita (University of Palermo, Italy), Arani Bhattacharya (Stony Brook, USA), Patrizio Marcocci (University of Florence, Italy), Jona Beysens (KU Leuven, Belgium), Bertold Van den Bergh (KU Leuven, Belgium), Nils Ole Tippenhauer (ETH, Switzerland), Lukas Bruderer (ETH, Switzerland), Ian Dangerfield (Hamilton Institute, Ireland).

Scientific Posts - Executive Committees

Financial Chair of ACM CoNEXT 2020, Virtual event (original location: Barcelona)

General chair of International Conference on Embedded Wireless Systems and Networks (EWSN) 2018 conference, February 2018, Madrid; 120+ participants. <https://ewsn2018.networks.imdea.org>

Chair of Demo session of ACM Mobicom 2017, Snowbird, Utah, USA. <https://www.sigmobile.org/mobicom/2017/demos.php>

Chair of MadCom 2017 workshop, co-located with the International Conference on Embedded Wireless Systems and Networks 2017 (EWSN'17). <http://www.ewsn2017.org/madcom-workshop.html>

General chair of IFIP/IEEE SustainIT 2015 conference, April 2015, Madrid; 50+ participants. <http://www.networks.imdea.org/sustainit2015>.

Chair of SNSF FLYNET workshop, November 2014, Zurich. <http://swarmix.ethz.ch/flynet/>

Chair of “The 6th IMDEA Networks Annual International Workshop: 5G Network Revolution” workshop, June 2014, Madrid. <http://events.networks.imdea.org/workshop2014>

Guest editor of IEEE communication magazine 2014 (special issue “Enabling Next Generation Airborne Communications”).

Editorial Board and Technical Program Committees

Editorial Board of Computer Networks (Elsevier) as an Area Editor

TPC member of ACM Mobicom 2022, 2020, 2019

TPC member of ACM Mobisys 2021

TPC member of IEEE Infocom 2022, 2021, 2020, 2019, 2018, 2017, 2016, 2015, 2014

TPC member of ACM CoNEXT 2021, 2018, 2017

TPC member of IEEE Secon 2019, 2018

TPC member of ACM Mobicom Workshop on Wireless Network Testbeds, Experimental evaluation and Characterization (WiNTECH 2020, 2019, 2018, 2017, 2016)

TPC member of IEEE Infocom 2018 Workshop on Computer and Networking Experimental Research using Testbeds (CNERT 2018)

TPC member of ACM Mobicom Workshop on Visible Light Communication Systems (VLCS 2017, 2016, 2014)

TPC member of ACM Sigcomm 2016, Poster and Demo Session.

TPC member of Workshop on Challenged Networks (CHANTS 2016, 2015)).

TPC member of IFIP Networking 2016, IFIP Wireless Days 2016, TPC member of MadCom Workshop at EWSN' 16

Demo Chair of ACM Dronet Workshop at ACM Mobisys 2015, TPC member of IEEE ICNP 2015 PhD forum, IEEE ICC 2015 workshop on Visible Light Communication and networking (VLCN 2015), IFIP Wireless Days 2015.

TPC member of ACM Mobihoc 2014 Workshop on Airborne Networks and Communications, IEEE Mass 2014, IEEE PIMRC 2014, IWOW 2014, IFIP Wireless Days 2014.

ACM Mobiwac 2013, IFIP Wireless Days 2013.

IEEE WoWMoM 2012, IFIP Wireless Days 2012, IEEE VTC 2012.

Invited reviewer at several conferences and journals.

Other Services to the Research Community

Panelist of FCT - Call for Exploratory Research Projects under the Carnegie Mellon Portugal Program. 2021, 2019

PhD Defense Committee member of Timothy Otim, University of Deusto, December 2020.

Member of the ACM MobiCom 2019 best paper selection committee.

PhD Defense Committee member of Ambuj Varshney, University of Uppsala, May 2018.

Reviewer of proposal submitted to Serrapilheira Non-profit Institution to support high-risk high-impact projects from best young researchers in Brazil, November 2017.

PhD Defense Committee member of Shuai Li, University of Eindhoven and Philips Research, May 2017.

Externak reviewer of H2020 ERC consolidator grant, 2013.

Reviewer for the Research Funding Applications at the University of Trieste, Italy, 2013.

Judge member for the best paper award at the student workshop at ACM CoNEXT 2011.
